DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 7, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by **Retallick (4,397,356)**. **Retallick** discloses a steam generator (SEE Figure 1) in which a fuel is fed by feeding device (10), air is fed by air feeding device (12) into a combustion and evaporation chamber (30), the air is the oxidizing agent and includes oxygen which reacts with fuel to form a hot reaction gas ignited by ignition device (13), a device (19) for feeding water, feeds water into the hot reaction gases to form a steam-containing reaction mixture which is fed through the outlet of the combustion and evaporation chamber (30) to a catalytic afterburner (20) which is a gas –permeable (honeycomb) structure made of metal (SEE column 2, lines 43-46).

Allowable Subject Matter

Claims 4-6, 8-14, and 16-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
